REFERENCES					

Gorkiy Shipyard [REDACTED] is located on the west bank of the Volga River in the northern (Sormovo) suburb of Gorkiy, adjacent to Gorkiy Heavy Equipment Plant Krasnoye Sormovo 112 [REDACTED].

The shipyard is undergoing expansion which will possibly more than triple the covered building way capacity (from approximately 2,700 linear ft to almost 9,000 linear ft).\*

New construction consists of 2 buildings which were begun in [REDACTED]

\* All mensural values were compiled by NPIC/TID from orbital data and are considered accurate to within plus or minus 10 ft or 5 percent, whichever is greater.

~~TOP SECRET RUSS~~

TCS-80155/66

At the present time neither is complete. The smaller building is located immediately west of the transverser and is a 3-bay covered building way 500 by 420 ft overall. The north bay is approximately 50 percent covered at this time, however, a crane is currently at work on the structure.

The large building is located SW of the transverser and is still in an early stage of construction. The footings indicate it will be 1,235 by 405 ft overall with three 1,235-by 135-ft bays. Uprights are spaced at [REDACTED] intervals and 6 crossbay beams are in place on the uprights at the SE corner of the structure.

No modifications are apparent on the transverser or winch house. However, in order for the new large building to be utilized for hull construction, the winch house and terminal for the transverser will have to be moved south approximately 700 ft.
